Dear Sir,

Thank you for your enquiry about our Fugitive range of **Specialist Sporting** cars.

The UVA Fugitives are purpose designed to obtain the ultimate performance per £1 spent. Their excellent value does not compromise your safety, hence the unique design of our Fugitive range.

You will see from the model breakdown chart enclosed, there are pure racing Fugitives available which have been further refined to be highly competitive in their respective classes of motor sport.

The Fugitive models designed for road use have all the necessary legal requirements for highway driving plus additional refinements such as weather equipment so that you can "be a Fugitive" throughout the year.

UVA's personnel have been involved in specialist car building, off road racing, circuit and drag racing for many years, with various championship victories to their credit. These experiences are combined to give you a high quality product, knowledgeable service and guide you in achieving your desire.

Because of the purpose design of the Fugitive 3 range, they are supplied in kit form, although separate chassis and body only are available. The enclosed information and order form will clearly illustrate this. UVA's range offers you the opportunity to purchase the best equipment for your UVA Fugitive and spread the purchase cost over a period of time. Fugitives are carefully hand built with selected equipment, consequently, the delivery time, from receipt of your payment, can take up to 12 weeks.

The UVA Company was the instigator for forming the Specialist Car Manufacturers Group, a section of the Society of Motor Manufacturers and Traders, consequently, our T.U.V. tested cars are built to a high standard and our Company is a sound organisation offering you an exceptional service.

If you require further assistance, please 'phone or call into our Showroom in Newbury where examples of our cars and products are on display. You can also take advantage of our "Fugitive Build" seminars, where one of our experts will show you how you build a Fugitive, step by step. These seminars can include race car preparation information.

To order your kit, simply fill in the enclosed order form and return it to us complete with 1/3rd deposit. We will acknowledge receipt of your order and advise the date your kit will be ready.

We look forward to being of service to you.

Yours respectfully,

UVA

SCMG CODE OF PRACTICE

(Your assurance of quality and safety)

Did you know the H.M. Government give exemption from National Automotive Type Approval to all amateur built vehicles (kit cars).

The result has been a flooding in the market place of over 100 firms, from large to one man operations.

The range of qualities, safety and road legal requirements equally, is as broad.

Therefore, how can you, as the customer be aware of **what is legal?** or **what is safe?** and **what is considered of good quality?**

Furthermore, will you receive the all important after sales service and technical support you may need?

UVA are Members of the Specialist Car Manufacturers Group and we meet the rigorous standards laid out in the SMMT/SCMG Code of Practice which includes:-

Engineering Standards (the main areas of consideration are)

- * Design
- * Body, body projections and door fittings
- * Braking system
- * Chassis and modifications to production parts
- * Chassis integrity and crash worthiness
- * Engine and transmission mountings
- * Fuel system materials
- * Glazing materials
- * Lighting
- * Mirrors
- * Suspension & Steering components
- * Occupant safety and dangerous projections
- * Seat belts and anchorages
- * Seats and mountings
- * Wheels & tyres - sizes, offsets, speed/load rating
- * Welding tests
- * Vehicle identification

Customer Service (the all important)

- * Availability of a full and comprehensive build manual which outlines in detail how to construct the car.
- * All the special parts are made available.
- * Full after sales service and telephone help line.
- * 12 month Warranty scheme.
- * Financial stability of Member Company.

These tests are carried out jointly by the SMMT (Society of Motor Manufacturers & Traders) and the TUV (U.K.), two of the staunchest and most reputable bodies in the Automotive World.

THE RESULT IS, YOU BUY WITH CONFIDENCE WHEN YOU PURCHASE FROM A MEMBER OF THE SPECIALIST CAR MANUFACTURERS GROUP.

From: The Unique Vehicle & Accessory Co. Ltd., Argents Mere High Technology Park, Hambridge Lane, Newbury, Berkshire, RG14 5TU.
